

Greetings from Trillium Haven Farm!

Our big news for 2012 is that we are moving Trillium Haven Farm into the city, in the form of a farm-owned, neighborhood eatery called "*Trillium Haven*" in the newly renovated Kingsley building on Lake Drive in Eastown.

Trillium Haven will highlight what we've become know for: a wide variety of seasonal vegetables bursting with flavor, color and nutrition. We'll have a "Farmhand Bar" which will feature local Michigan beers, wines, & ciders, as well as an outdoor patio for summer dining. The décor and ambiance of *Trillium Haven* will be "Contemporary Rustic," with a wood-fired oven and open kitchen at the heart of the restaurant. Light, bright, airy and natural is how we see this beautiful space in our mind's eye.

Come with us as we move into the city!

We are inviting a small number of our most passionate farm supporters to come with us on this journey by purchasing either a **Trillium Haven Farm Membership** or a **Trillium Haven Restaurant Membership**. These memberships give you the opportunity to stay deeply connected to the farm, as well as giving us the micro-investment needed to bring our vision into reality.

The longstanding mission of Trillium Haven Farm has been to feed the community—mind, body and soul. By expanding the farm into the city, we feel that we can welcome a wider diversity of individuals to the farm table; expand the options for healthy, organic food; and continue to work toward a local food system that attracts and retains young farmers.

Grand Rapids is in the process of real change and continued revitalization, and we want to be active participants in that process. Restaurants play an integral role in the social interaction of society; offering more than just food, they offer a sense of community and belonging. In this time of texting and twitter, we want to offer a place that celebrates the joy of face-to-face communication, a place that brings a diversity of people together around great food. We look forward to playing host to this community interaction and participating in the many conversations yet to be had about food, farming, cooking, and culture.
